

Health and Safety Report 2025-26

There have been no reported Health and Safety incidents at either church sites. Please report any incidents – whether or not they are minor, e.g., needing a bandaid.

St Peters has a current building code of compliance and St Pauls is awaiting the replacement of an emergency exit light.

Both churches are checked monthly by a contracted Fire Safety company.

The Fire Evacuation drills are up to date in both churches

The electrician has been booked to test and tag all the electrical devices in both churches. All power sockets up to a metre from ground level are to be fitted with child safe protection devices

The Hazards Identification check has been done for both churches with several minor deficiencies identified. These will be attended to in the near future.
